

As a subsidiary of Harmonic Drive® SE, we combine the key competencies of our parent company with absolute expertise in the field of micro actuator technology. We specialise in the manufacture of high precision micro drive technology with a focus on accuracy and compact size.

We provide our customers with the very best quality, matching their needs throughout the development process, from consultation and design, all the way to the finished product.

Our innovative products are suitable for applications in the fields of precision mechanics and semiconductor, medical equipment, optics and laser technique as well as space technology.

To support our customers and expand further business potential, we are looking for a committed and experienced sales employee to start as soon as possible.

Sales Engineer (m/f/d)

Type of contract: Permanent contract, full-time

Your area of responsibility with us:

- You actively acquire new customers.
- You are responsible for the technical and commercial support and development of our customer projects.
- You are used to work independently.
- You prepare quotations and conduct discussions with the customer from the initial meeting to the conclusion of the contract.
- You will develop and implement a sales and marketing strategy.

Your profil:

- You have a degree in technical engineering.
- You have several years of professional experience, preferably in drive technology.
- You have a strong sense of empathy and persuasiveness with a „hands-on mentality“.
- You have experience in the necessary business processes and the skillful use of digital tools.
- You are business fluent in German and English.
- You enjoy traveling.

We offer:

- Versatile and challenging sales management tasks in a new environment.
- Flat hierarchy.
- A responsible job with organizational freedom.
- The opportunity to actively develop new customers and application areas in a dynamic environment.

Please send your application documents to:

Mrs. Miriam Cordes
